

STUD SERVICE AGREEMENT

READ BEFORE YOU BREED INSTRUCTIONS

- Notify us as soon as your female comes into heat via our website booking app. <https://www.sssbullies.com/book-online> Select the stud name and choose estimated date you may need to receive semen by. This date can be changed on the website at a later time as needed.
- Make sure stud credits are paid in full. Only credits that are valid and paid in full will be approved and added to the breeding calendar. Breedings are on a first come (paid) first served basis.
- Keep us updated on PG test results as soon as you get them even if the female is not ready. This allows us to schedule weekly breedings accordingly. Along with the results of the PG, the machine used along with the number ovulation occurs with that machine, is needed. There are multiple PG testing machines used that has their own PG test charts.
- We require at least 24 hours prior notice in order to collect and ship semen. No last minute shipping will be done.

SEMEN COLLECTION / SHIPPING CHARGES

___ The cost for semen collection, general semen analysis, packaging and handling, and priority next day shipping within the continental United States, is \$350 dollars. This fee does not included a full semen analysis by our veterinarian. A full analysis can be completed for an additional \$150 dollars. When available, fresh chilled semen can be shipped same day via various airlines cargo, and subject to carrier, location, and flight availability. An additional \$100 dollars on top of the \$350 collection and shipping fee will apply. 24 hours prior notice is also required

___ If fresh chilled semen is not available, frozen semen (if semen is already collected, stored, and available) can be shipped within the US at the bitch's owner expense, approximately \$650 dollars, prices subject to change. Collection and freezing cost will be waived by the STUD owner. Return of the shipping containers is the responsibility of the bitch's owner and must be returned within 24 hours using the attached prepaid return label. If not returned within 24 hours, bitch owner will be charged actual fees from the shipping veterinarian.

___ The bitch owner must report any issues with the semen quality prior to use or all guarantees will be voided. All semen used will constitute as a valid breeding attempt. If semen is to be discarded, proof from the veterinarian is required otherwise it will constitute as a valid breeding attempt.

___ International shipping fees will vary depending on collection method (frozen or chilled), type of shipment, location, testing, and paperwork required. There is a additional \$550 handling fee for all international shipments outside of Canada. We recommend our clients reach out to the shipping companies directly for quotes info@siresonice.com export@siriuscaninefertility.com

___ Frozen semen already processed and stored in other countries outside of the US, may be available for an additional \$1,500 on top of the listed stud fee. This is used to cover collection, freezing, taxes, handling, paperwork requirements, shipping, and storage expenses. All currently stored breeding units must be paid in full in order to secure each breeding unit. No lock ins will be accepted to reserve the unit.

___ The STUD owner is not responsible for delayed shipment due to carrier delays/negligence, or force majeure.

BREEDING TERMS

___ The Stud Owner only guarantees healthy and viable semen (within established reproduction standards for fresh chilled or frozen semen for canine breeding, within the country where the semen is to be used).

___ Litter sizes may vary due to multiple factors outside of viable semen. Due to this fact, STUD owner is not obligated nor offer any guarantee to the size of the litter produced, as the result of this breeding.

___ As a courtesy, if less than 2 live and healthy puppy are produced (natural whelping voids this courtesy), a second breeding will be provided to the same bitch (at no additional charge for the STUD fee) within one year of this whelping. The bitch's owner will be responsible for any additional semen collection and shipping expenses.

___ If the bitch fails to conceive the second time, a third and FINAL breeding will be provided (at no charge for the STUD fee) on the bitch's next heat cycle. The bitch's owner will be responsible for any additional semen collection and shipping expenses. A substitute bitch may be used but will be solely at the Stud Owners discretions and subject to a \$500 transfer fee.

___ Stud Owner has the right to request documented proof of all breeding's that resulted in less than two live and healthy puppies, failure to conceive, or any other instances where less than two live and healthy puppies were produced. Documents requested from the bitch's owner may include:

- Ultrasounds results completed on day 30-35 (dated along with the bitch's name) from a licensed veterinarian, indicting the number of puppy or puppies seen.
- A copy of an X-RAY completed at day 50-55 by a licensed veterinarian, showing the date completed along with the bitch's name and it's owners name. indicting the number of puppy or puppies born in this litter.
- All documents from the veterinarian must include details on the bitch(Name, Date of Birth, Owner, identifying colors or marks, etc), date service was completed, be written or typed on veterinarian company letterhead, and emailed to INFO@SSSBULLIES.COM. The bitch owner is REQUIRED to grant the STUD owner access to verify information directly from the bitch's attending veterinarian.

___ NO natural ties will be permitted.

___ Side by side breeding maybe allowed in person, at the agreed veterinarian office based on STUD owner and veterinarian availability. A negative brucellosis test must be completed on the bitch by a licensed veterinarian within 5 days of the breeding. The negative report must be sent to the STUD owner prior to the breeding taking place.

___ Any issues with semen quality, upon receipt and proper testing by a licensed veterinarian, must be reported to the STUD owner prior to insemination. A full semen analysis by a licensed vet is required should a refund be requested due to semen issues. A written statement or video proving that the semen was discarded and not used for the breeding is required for a refund of the stud credit. Using the received semen to inseminate the bitch will constitute as a valid breeding attempt. Any deviation to this will void all guarantee on semen.

LITTER REGISTRATION

___ Litter Registration Application(s) can be sent to he Stud Owner once the puppies have reached a minimum of 4 weeks of age. All litter registration applications will be initiated by the bitch's owner using the registration portal from our website www.sssbullies.com/forms . Step by step instructions are provided on our website on how to complete this request. Completion of all litter registrations forms and agreements will be done via Docusign from our website ONLY.

BITCH OWNER AGREEMENTS

___ Progesterone testing is required and MUST be done by a licensed Veterinarian prior to all breeding's including repeated breeding's. Proof of said testing may be requested by Stud Owner at any time and MUST be provided by the bitch's owner.

___ Bitch's owner is required to immediately notify the STUD owner of all progesterone results (even if the female has not ovulated yet per test results) once received by the veterinarian. This is to ensure STUD availability on the date semen is needed for the scheduled breeding. Lack of notification will place your breeding at risk.

___ Bitch's owner is required to give the STUD owner a MINIMUM of 24 hours notice of when they need the STUD collected and shipped. STUD owner has the right to charge an EXPEDITED FEE of \$500 for any request not meeting this requirement.

___The Bitch Owner guarantees that this bitch has not been breed to any other stud/s prior to being bred to the requested stud listed, and that she will be protected from such exposure after the breeding has taken place.

___ Dual sires are not permitted and will void any guarantees on repeat breedings. If any question of parentage should arise, the Stud Owner reserves the right to request DNA testing of the puppies at the Bitch Owner's expense.

___ The Bitch Owner agrees to promptly contact the Stud Owner after the puppies are born and inform them of the number of puppies produced in the litter.

___ The Bitch Owner understands and agrees that any guarantees given verbally or in writing to the puppy buyers from this breeding, are the sole responsibility of the Bitch Owner.

___ Stud Owner has permission to share information with any owners of the sire's offspring or close relatives, as well as post the information on their website/Social media outlets. Proper credits will be given.

___ Bitch's owner agrees to breed and use the received semen at their own risks and frees the STUD owner of any liability as the result of this breeding/s.
